**End Application:**

An/aaq-2 (v)

**Emission Type:**

A9

**Emission Class:**

Barrage and spot

**Criticality Code Justification:**

Supp

**Special Features:**

Transmits in bands 1, 2, 4, x, y, and z

**Functional Description:**

Small laser transmitter, includes lamp subassembly. See msds sheet, ecp 394-002413 and work document to show the relationship

**Radioactive Content:**

Contains radioactive material

**Radionuclides Data:**

30.000 microcuries krypton (36) kr-85

**Supplementary Features:**

E.S.D. Critical unit; see msd sheet un2857

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T213-m
