End Application:

C-12868/ot-228

Maximumlength:

5.2 inches

Maximumwidth:

8.0 inches

Maximumheight:

6.9 inches

Product Name:

Circm system processor unit (spu)

Special Features:

Weight is 8.0 lbs

Functional Description:

The control, transmitter, countermeasures lru, provides the computational, control and communications resources necessary to operate the laser infrared device. The control, transmitter, countermeasures is the primary link between subsystems and is responsible for control and status data which is passed from the laser infrared device to the operator via the missile warning system (mws).

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
