Overall Length:

1.200 inches

Overall Height:

0.930 inches

Overall Width:

1.000 inches

Electrical Power Source Relationship:

Operating

Power Supply Output Current Type:

Dc

Amplifier Name:

Relay amplifier

Special Features:

M 55.0 to p 125.0 degrees c operating temperature

Fsc Application Data:

Electronic component assembly computer automatic flight control system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T213-a
