Overall Length:

19.000 inches

Overall Height:

11.940 inches

Overall Width:

15.380 inches

End Application:

Bmews

Component Type And Quantity:

4 diode and 12 capacitor and 9 terminal and 5 transformer and 1 connector and 4 reactor and 30 resistor and 1 chassis

Special Features:

Usage design: comparator-detector; jack-tip q type 8; terminal board q type 7; electron tube q type 3; tube socket q type 3; tube shield q type 3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
