Overall Length:

7.375 inches

Overall Height:

3.375 inches

Overall Width:

3.687 inches

Component Type And Quantity:

1 inductor and 1 transformer and 1 fuseholder and 1 transistor

Special Features:

Kbolt mtd; printed circuit board 1; terminal board 1; resistor, variable 1; four 0.171 in. Diameter mtg holes On 6.625 by 2.250 in. Mtg cntrs; indicators, azimuth-range, radar, nonairborne, exc. Fire control and guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
