**General Description:**

frequency 400 hz. 120 vac, 1ph, adjustable range under frequency, 340 to 400 hz, over frequency, 400 to 460 hz. Calibrated 380 to 420 hz. Operating temp range minus 32 degrees c to plus 52 degrees c, transient withstand 2000v for 200 microseconds. O/a dim. 3.500 in w, 6.500 in h, 5.000 in. D, four 0.188 in. Dia mtd holes spaced on 6.125 in, by 2.500 in. Mtd ctr, application data, used on power-distribution-switching unit, jetds, type no. Sa1901/tsc54

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
