Overall Length:

3.187 inches

Overall Height:

4.437 inches

Overall Width:

3.437 inches

Dc Voltage Rating:

25.0 volts

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Not included

Amplifier Power Output Rating:

100.0 milliwatts

Modulator Power Output Rating:

45.0 watts

Modulator Input Channel Quantity:

3

Modulator Input Channel Impedance Rating:

82.0 ohms

Fsc Application Data:

Receiver-transmitter, radio, except navigation, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T213-a
