Overall Length:

14.812 inches

Overall Height:

0.937 inches

Overall Width:

2.687 inches

Component Type And Quantity:

1 capacitor and 1 diode and 1 post and 1 resistor

Special Features:

Major components: identification strip 1; terminal board 1; mounting method: eight no. 8-32 threaded mounting holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51110
