Overall Length:

14.812 inches

Overall Height:

1.312 inches

Overall Width:

2.750 inches

Component Type And Quantity:

1 bracket and 1 capacitor and 1 post and 1 resistor and 1 transformer

Special Features:

Major components: identification strip 1; terminal board 1; mounting method: four no. 8-32 threaded and four 0.169 inch diameter mounting holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511I0
