Overall Length:

6.500 inches

Overall Height:

0.750 inches

Overall Width:

6.000 inches

Component Type And Quantity:

1 network and 1 resistor

Special Features:

Major components: tone transmitter basic assembly; component quantity: 5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
