**Overall Length:**

4.938 inches

**Overall Height:**

2.375 inches

**Overall Width:**

4.062 inches

**Component Type And Quantity:**

2 bracket and 1 capacitor and 3 coil and 2 plate

**Special Features:**

Major components: terminal board 1; component quantity: 7; mounting method & configuration: screw, three 0.196 inch diameter mounting holes irregularly spaced

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51110
