Overall Length:

5.625 inches

Overall Height:

2.500 inches

Overall Width:

5.000 inches

End Application:

Type no. Bc-653-a

Component Type And Quantity:

1 capacitor

Special Features:

7major components: inductance unit 2; mounting base and bracket 1; usage design: in conjunction with power amplifier; mounting method & configuration: mounts by three no. 6-32 tapped mounting posts; spaced 3.500 inch by 1.9375 inch mounting centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
