Overall Length:

12.000 inches

Overall Height:

4.874 inches

Overall Width:

6.624 inches

Component Type And Quantity:

1 capacitor and 1 case and 1 coil and 1 connector and 1 cover and 1 insulator and 1 relay and 1 shield and 1 terminal

Special Features:

Major components: integrated circuit; component quantity: 48; mounting method & configuration: unthreaded holes, four 0.125 inch diameter mounting holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
