Average Life Measurement:

Not rated

End Application:

Satellite comm term. An/tsc-54

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Operating Control Method:

Automatic

Installation Design:

Mechanical

Control Type:

Remote

Circuit Construction Type:

Solid state

Connection Type And Location:

Receptacle, power left side and receptacle, power right side

Supplementary Features:

Four 4-40 unc-2a by 0.250 in. Mach. Screws for mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
