General Description:

H120 vac operating voltage, 60 hz frequency, single phase, 600 ohms input impedance, 40 dbm receiving level, 5800 hz or 6100 hz operating center frequency, 10.000 in. Lg, 19.000 in. W, 5.250 in. H, rack mounted

Fsc Application Data:

Communications system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
