Overall Length:

11.563 inches

Overall Height:

10.000 inches

Overall Width:

10.250 inches

Component Type And Quantity:

1 absorber and 2 capacitor and 1 transformer and 1 tube

Special Features:

Major components: bellow 1; transformer, subassembly 1; mounting mounting & configuration: bolt, ten 0.250 inch diameter mounting holes irregularly spaced; usage design: high powered, high frequency tunable oscillator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
