Overall Length:

4.500 inches

Overall Height:

1.750 inches

Overall Width:

2.375 inches

Component Type And Quantity:

9 capacitor and 3 coil and 21 resistor and 6 crystal and 1 board

Special Features:

Mounting method: fastener and terminal contact mounted; component quantity: 40; fsc application data: synchronizer assembly, aircraft gunnery, fire control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
