Component Type And Quantity:

1 adapter and 1 transistor and 1 handle and 1 capacitor and 1 connector and 1 diode and 1 diode and 1 jack and 1 printed wiring board

Special Features:

Mounting method: thumbscrew; component quantity: 68; fsc application data: radar set, nonairborne, except fire control and guiled missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
