**Overall Length:**

6.735 inches

**Overall Height:**

2.960 inches

**Overall Width:**

1.960 inches

**Component Type And Quantity:**

1 printed wiring board and 1 capacitor and 1 coil and 1 transistor and 1 resistor and 1 connector and 1 cable

**Special Features:**

Mounting method: holes for screws; component type and quantity: varactor 1, integrated circuit 1; component quantity: 154; mounting configuration: four 6-32 thd screws spaced on 1.250 in. By 6.330 in. Mtg centers; fsc application data: transmitting set radio electronic identification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51110
