**Overall Length:**

24.250 inches

**Overall Height:**

13.250 inches

**Overall Diameter:**

20.250 inches

**Component Quantity:**

1

**Locking Device:**

Included

**Component Controlling Agency:**

Jcens

**Component Name:**

Audio frequency amplifier

**Component Identifying Number:**

Am-1249/u type no.

**Handle Quantity:**

2

**Handle Location:**

Each side

**Special Features:**

Has 3 compartments for operating accessories and spare parts

**Material:**

Plywood and aluminum

**Surface Treatment:**

Enamel

**Fsc Application Data:**

Recorder-reproducer set, sound

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T358-a
