Overall Length:

11.750 inches

Overall Height:

10.500 inches

Overall Width:

11.500 inches

Component Type And Quantity:

1 absorber and 2 capacitor and 1 connector and 1 transformer

Special Features:

Major components: electron tube 1; transformer subassembly 1; component quantity: 7; mounting method & configuration: screw, ten 0.273 inch diameter mounting holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
