Overall Length:

6.500 inches

Overall Height:

0.595 inches

Overall Width:

4.375 inches

End Application:

Type no. T-217a/gr

Special Features:

Major components: insulator plate 1; ring, lh plate 1; usage design: power amplifier; mounting method & configuration: shaft mounted;
0.406 inch diameter hole in center

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
