Overall Length:

4.625 inches

Overall Height:

0.125 inches

Overall Width:

2.875 inches

Component Type And Quantity:

1 bracket and 4 capacitor and 15 resistor and 32 lug and 1 board

Special Features:

Mounting method: bracket; component quantity: 53; usage design: u/o chassis; fsc application data; modulator, power supply group radio communication equipment, except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
