**Overall Length:**

1.171 inches

**Overall Height:**

0.295 inches

**Overall Width:**

0.700 inches

**End Application:**

Receiver-transmitter, radio communication equipment airborne

**Component Type And Quantity:**

1 capacitor and 1 coil and 1 cover and 2 base

**Special Features:**

Two no. 2-56 mtg holes in integral mtg bracket; used as a tuned circuit unit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51110
