Overall Length:

12.500 inches

Overall Height:

3.125 inches

Overall Width:

3.250 inches

End Application:

Receiver-transmitter radio communication equipment, airborne

Special Features:

Detector 1; amplifier 3; noise limiter 1; detector 1; chassis mtg; used as an amplifier and demodulator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
