Overall Length:

24.000 inches

Overall Height:

32.000 inches

Overall Width:

22.000 inches

Component Quantity:

1

Locking Device:

Not included

Component Controlling Agency:

Jcens

Component Name:

Transmitter

Component Identifying Number:

0a-243/gpn type no.

Handle Quantity:

4

Handle Location:

Each side

Product Name:

Case, transmitter

Material:

Aluminum

Surface Treatment:

Enamel

Fsc Application Data:

Radar set, radar search equipment, except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T358-a
