Overall Length:

9.500 inches

Overall Height:

2.875 inches

Overall Width:

5.375 inches

End Application:

Receiver-transmitter, radar search equipment, airborne

Special Features:

Capacitors 47; resistors 64; coils 8; motor and fan 1; bolt mtg; used as drive chassis assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
