Overall Length:

22.750 inches

Overall Height:

9.500 inches

Overall Width:

14.000 inches

Component Quantity:

2

Locking Device:

Not included

Component Controlling Agency:

S1g

Component Name:

Transmitter; panel

Component Identifying Number:

MI-203 type no. And ml-204 type no.

Handle Quantity:

2

Handle Location:

End

Product Name:

Case, transmitter

Material:

Wood

Surface Treatment:

Enamel

Fsc Application Data:

Wind direction and speed instrument, meteorological equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-a
