Overall Length:

16.500 inches

Overall Height:

2.500 inches

Overall Width:

3.375 inches

End Application:

Receiver-transmitter, radio navigational equipment, airborne

Special Features:

Capacitors 38; resistors 36; chokes, radio frequency 23; chassis 1; chassis mtg; used as bare unit for recvr-xmitter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
