Overall Length:

3.500 inches

Overall Height:

0.800 inches

Overall Width:

2.200 inches

Component Type And Quantity:

1 printed wiring board and 1 capacitor and 1 transformer and 1 resistor

Special Features:

Connector and rack mtd; jack tip 1, semiconductor device-diode 1; radar, nonairborne, exc. Fire control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
