Overall Length:

28.000 inches

Overall Height:

28.500 inches

Overall Width:

24.750 inches

Component Quantity:

17

Locking Device:

Not included

Component Controlling Agency:

Sig

Component Name:

Radio set control; mounting; interconnection box; radio set control; dynamic loud speaker; cable assembly; cable assembly; headset; cable assembly; spool; remote control unit; microphone; microphone, cord; cable assembly; wire 1/4 mile; control unit

Component Identifying Number:

C-626/arc-27 type no. And mt-821/arc-821/arc-27 type no. And 4-499/grc type no. And -628/arc-27 model no. And I5-166/v type no. And cx-2053/v type no. And cx-2054/v type no. And hs-33 type no. And cx-2007a/v type no. And dr-8 type no. And rm-52 type no. And t-17 type no. And t-17 type no. And cd-307a type no. And cx-2162/v type no. And wd-1/tt type no. And rm-53 type no.

Handle Quantity:

2

Handle Location:

Top

Material:

Plywood

Material:

Plywood

Fsc Application Data:

Transmitter-receiver, radio communication equipment, except airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T358-a
