**Overall Length:**

3.750 inches

**Overall Height:**

0.531 inches

**Overall Width:**

3.031 inches

**End Application:**

Type no. T-721/tsq-36

**Component Type And Quantity:**

1 printed wiring board and 17 resistor

**Special Features:**

Pmajor components: semiconductor device, diode 50; mounting method & configuration: plug-in mount; jetds name & type: transmitter unit subassembly, mx-2688/6; usage design: time slot gate logic circuit; marked: 't/r'

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A5110
