Overall Length:

11.563 inches

Overall Height:

10.000 inches

Overall Width:

10.250 inches

Component Type And Quantity:

2 absorber and 1 cap and 2 capacitor and 2 terminal and 1 transformer and 1 tube

Special Features:

Major components: bellows 1; decal 1; shield connector 1; transformer subassembly 1; ring, retaining 2; component quantity: 15;
mounting method & configuration: ten 0.250 inch diameter mounting holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
