Overall Length:

4.750 inches

Overall Height:

3.875 inches

Overall Width:

4.500 inches

Component Type And Quantity:

1 capacitor and 1 block and 5 terminal and 2 sleeve and 12 plug and 1 resistor and 1 shield and 1 housing and 2 gear and 1 collar and 3 pin and 12 socket and 1 synchro and 2 ring

Special Features:

Screw mtd; gear pin assembly 1, gear stud assembly 1, deflection coil and hsg assembly 1, focus coil 1, brush 2, servo motor and gear trim 1, strap mtg 1, net 12, shaft idler 1, insert heli-coil 3, bearing 3, yoke 1; four 0.164-32 nc-24 holes irregularly spaced; radar navigation, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
