Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

27.5 volts

Frequency Rating:

800.0 hertz

Internal Battery Accommodation:

Not included

Recording Method:

Tape

Channel Quantity:

4

Information Recorded:

Antenna azimuth position recorded, deflection voltage recorded, target acquisition time recorded

Phase:

Single

Fsc Application Data:

Recorder, signal data, communications miscellaneous equipment airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T198-a
