Overall Length:

19.000 inches

Overall Height:

3.469 inches

Overall Width:

4.750 inches

End Application:

Application data: recorder, coordinating data, combat information central

Component Type And Quantity:

1 chassis and 1 diode and 2 relay and 1 timer and 1 tube

Special Features:

Terminal strip 1; total components: 7; friction mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
