Overall Length:

19.000 inches

Overall Height:

3.469 inches

Overall Width:

5.000 inches

End Application:

Application data: recorder, coordinate data, combat information central

Component Type And Quantity:

1 chassis and 4 relay and 3 tube

Special Features:

Terminal board 1, terminal strip 1; total components: 10; friction mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
