Overall Length:

10.312 inches

Overall Height:

1.718 inches

Overall Width:

2.375 inches

Component Type And Quantity:

1 cable and 5 capacitor and 2 jack

Special Features:

Major components: crystal diode 2; usage design: couples output of transmitter to antennas; mounting method & configuration: threaded holes, two no. 6-32 thread nc-2 mounting holes diagonally spaced on 0.625 inch by 1 inch center to center

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
