End Application:

6660-00-551-4830, cloud height set, an/gmq-13

Supplementary Features:

Consists of electron tubes, capacitors, audio freq and power transformers, resistors, diode, terminal lug, component assembly and subassy

Fsc Application Data:

Detector main assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T213-a
