Overall Length:

1.968 inches

Overall Height:

0.976 inches

Overall Width:

1.226 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Operating Control Method:

Manual

Installation Design:

Mechanical

Control Type:

Local

Circuit Construction Type:

Electron tube

Frequency Per Channel:

35.5 megahertz operating channel

Fsc Application Data:

Radio, except radio navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
