**Overall Length:**

1.968 inches

**Overall Height:**

0.976 inches

**Overall Width:**

1.226 inches

**Basic Shape Style:**

Rectangular or square

**Inclosure Type:**

Encased

**Operating Control Method:**

Manual

**Installation Design:**

Mechanical

**Control Type:**

Local

**Circuit Construction Type:**

Electron tube

**Frequency Per Channel:**

35.5 megahertz operating channel

**Fsc Application Data:**

Radio, except radio navigation, nonairborne

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
