**Overall Length:**

14.500 inches

**Overall Height:**

6.500 inches

**Overall Width:**

10.000 inches

**End Application:**

Transponder set

**Component Type And Quantity:**

1 capacitor and 1 circuit breaker and 2 cover and 1 delay line

**Special Features:**

8connector, receptacles 13; filter, radio interference 3; meter, time totalizing 1; resistor, fixed 1; resistor, variable 1; jetds name: chassis, electrical equip.; jetds type: ch-512/apx-46; mtg method-holddown by 2 hooks; mtg congiguration-spaced 0.375 in. C to c

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A5110
