Reliability Indicator:

Not established

Overall Length:

0.375 inches

Overall Diameter:

Between 1.502 inches and 1.515 inches

Basic Shape Style:

Cylindrical

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Any acceptable

Fsc Application Data:

Communication equipment, miscellaneous

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
