Overall Length:

4.800 inches

Overall Height:

1.063 inches

Overall Width:

3.170 inches

End Application:

Type no. Rt-494/apx-44

Special Features:

Printed circuit board 1; capacitor, fixed, ceramic dielectric 2; capacitor, fixed, mica dielectric 3; electron tubes 4; resistor, fixed, composition 25; mtd in socket and held in place by 2 screws-spaced on 4.364 in. Ctrs; used in gate generator circuit; identification transponder set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
