Overall Length:

6.010 inches

Overall Height:

0.642 inches

Overall Width:

5.510 inches

Component Type And Quantity:

1 printed wiring board and 16 capacitor and 23 diode and 56 resistor and 11 transistor and 4 jack and 1 coil

Special Features:

Mounting configuration: plug-in mtd; component type and quantity: integrated circuit 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
