Body Length:

44.120 inches

Body Width:

25.670 inches

Body Height:

3.440 inches

End Application:

Type no. 0a-1256/mpq-4a

Mounting Configuration:

5 fasteners equally spaced 8.530 in apart on long sides, 4 fasteners equally spaced 6.500 in. Apart on short sides

Material:

Aluminum

Material:

Aluminum

Fsc Application Data:

Control-indicator, radar, nonairborne, except fire control and guided missiles

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T23700
