Overall Length:

14.000 inches

Overall Height:

9.750 inches

Overall Width:

13.500 inches

Component Type And Quantity:

1 coil

Special Features:

Lmajor components: spring contact 4; wafer contact 5; wafer 1; sideplate 2; top support 1; component quantity: 14; mounting method & configuration: bolt, irregularly spaced multiple hole mounting on base and rear

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
