Application Design:

Receiver-transmitter

Overall Length:

19.000 inches

Overall Height:

0.750 inches

Material:

Aluminum alloy

Material:

Aluminum alloy

Supplementary Features:

Right side cover

Surface Treatment:

Any acceptable

Fsc Application Data:

Radio and television communication equip., airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T23700
