Overall Length:

16.375 inches

Overall Height:

13.000 inches

Overall Width:

15.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Joint Electronics Type Designation System Item Name:

Amplifier-power supply

Joint Electronics Type Designation System Item Type Number:

Am-2429/gmq-10c

Electrical Power Source Relationship:

Operating

Amplifier Name:

Audio frequency

Phase:

Single

Reference Number Differentiating Characteristics:

As manufactured by practical electronics mfg co

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T213-a
