Overall Length:

4.375 inches

Overall Height:

2.375 inches

Overall Width:

2.437 inches

Component Type And Quantity:

7 capacitor and 1 coil and 23 resistor and 1 board and 1 transformer

Special Features:

Mounting method: stud; component quantity: 33; mounting configuration: two stud type fasteners irregularly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
